INDEX TO VOLUME 11
Subjects

Abdominal injuries
  blunt
    emergency department ultrasound in, 342-346
    goat assault (letter), 191-192
  multiple (letter), 92-93
  nonpenetrating, jejunal perforation from, 473-475
Aborting, uterine leiomyoma, vaginal bleeding, 40-42
Abscess, *see* specific type
Acepromazine, poisoning, pediatric, 247-248
Acetone, poisoning, diagnosis and misdiagnosis, 104-108
Acetonitrile, poisoning, diagnosis and misdiagnosis, 104-108
Achondroplasia, multiple trauma in, 390-395
Acidosis, infantile methemoglobinemia, acute diarrheal illness and, 471-472
Adenosine
  injection, treatment of atrial fibrillation, 245-246
  intravenous
    respiratory failure after, 249-250
    supraventricular tachycardia, complications (letter), 192-194
Administration, emergency medicine, group practice, equity buy-in structures, 28-32

Advanced cardiac life support drugs, extreme temperature effects, 450-452
Aeromedical services, fixed-wing, reimbursement patterns, 586-589
Aging
  hemorrhagic varicella, complications in children, 633-638
  survival of out-of-hospital cardiac arrest and, 200-206
Air bag, lifesaving with toxic potential, 38-39
Air transport, cardiac patients, 651-652
Airway
  management, cricothyrotomy by prehospital personnel, 207-209, 310
  upper, obstruction, psychogenic, 400-402
Albuterol
  continuous protocol, acute asthma attacks, 131-133
  wheezing children, treatment in emergency department, 109-114
Alcohol, acetonitrile poisoning, diagnosis and misdiagnosis, 104-108
Aluminum, foreign bodies, radiographic detection, 12-13
American Association of Poison Control Centers, Toxic Exposure Surveillance System, 1992 annual report, 494-555
Amrinone, glucagon therapy and, comparison, beta-blocker toxicity, 360-363
Anemia, hemolytic, ingestion of fava beans and (letter), 560-561
Anesthesia, jet injector use, digital blocks, 648-650
Angina, unstable, continuous ECG monitoring, 54-60
Angioedema
  angiotensin-converting enzyme inhibitors and, emergency department, 350-354
  cold-induced urticaria and, 43-46
Angiotensin-converting enzyme inhibitors, angioedema and, emergency department, 350-354
Antibiotics, wound preparation, guinea pig model, 134-138
Anticardiolipin antibody, lupus patients, with vascular thrombosis, 468-470
Antidepressant agents, overdose, hypertonic sodium bicarbonate in treatment of, 336-341
Anti-foam therapy, emergency treatment, butyl alcohol vapor use in near-drowning, 20-27
Antiphospholipid antibody syndrome, acute pancreatitis and, emergency department patients, 230-232
Aortic dissection, type 1, inadvertent administration of rtPA in, 613-615
Appendicitis
  differentiation from pelvic inflammatory disease, childbearing age women, 569-572
  spontaneously resolving, ultrasound, 51-53
Artifacts, technical, ECG lead misplacements, 403-405
Asthma
  acute attacks, continuous albuterol protocol for, 131-133
  sensibility assessment, quality-of-life instrument, 374-380
  wheezing, changes in treatment in emergency department, children, 109-114
Atrial accelerated idioventricular rhythm syndrome, electrocardiography, 287-289
Atrial fibrillation
  electrocardiography, 287-289
  new onset, adenosine injection for, 245-246
Atropine
  electromechanical dissociation (letter), 312
  wheezing children
    treatment in emergency department, 109-114
Attitudes, medical students' specialty choices, risk of HIV effects on, 143-148
Automobile safety
  air bags, toxicity of, 38-39
  differential front and back safety belts, use by prehospital care providers, 595-599

Bacterial infection, wound preparation, guinea pig model, 134-138
Benzodiazepine, comatose drug overdose patients, 122-124
Bezold-Jarisch reflex, nitroglycerin administration, symptomatic bradycardia after, 253-255
Bicarbonates
  see also Sodium bicarbonate
  effect on high-dose epinephrine, during CPR, swine, 439-443
Biological growth factors, recombinant erythropoietin overdose, 619-621
Bleeding
  disorders, factor VII deficiency, 600-601
  vaginal, aborting uterine leiomyoma, 40-42
Blindness, bilateral amblyopia, "crack" cocaine-induced, 35-37
Book reviews, 90, 308-309, 666
Brachial artery, emboli, presenting as ischemic heart disease, 67-69
Bradyasystole, prolonged, complication of intravenous adenosine for tachycardia (letter), 192-194
Bradycardia, symptomatic, after sublingual nitroglycerin, 253-255
Bronchial stump, disruption, postpneumonectomy, 47-50
Bronchoconstriction, after adenosine administration, 249-250
Bronchodilators
  acute asthma attacks, continuous albuterol protocol for, 131-133
  wheezing children, treatment in emergency department, 109-114
Bronchus, left mainstem intubation, inadvertent, 33-34
Burns, long-acting effects of superoxide dismutase, rat, 355-359
Butyl alcohol vapor, emergency treatment with, near-drowning, 20-27

Calcium channel blockers, heart block, electrocardiography, 491-493
Canine model, heatstroke, evaporation versus iced peritoneal lavage, 1-3
Carbon monoxide, poisoning, hyperbaric oxygen therapy for, 616-618
Cardiac arrest
  automated and manual defibrillation, emergency medical technicians, rural setting, 125-130
  out-of-hospital, survival, age and emergency medical service access effects, 200-206
  prehospital resuscitation, standards and limits, 592-594
Cardiac arrhythmia, cardiac pacing, emergency, 166-176
Cardiac enzymes, diagnosis of acute chest pain and, 444-449
Cardiac pacemaking, emergency, 166-176
Cardiac patients, air transport, 651-652
Cardiopulmonary resuscitation
  see also Resuscitation
  decision-making,New Mexico EMTs, 139-142
  discrepancy in beliefs, physicians, 290-292, 592-594
  high-dose epinephrine during, sodium bicarbonate effects, swine, 439-443
  out-of-hospital,preference in emergency health care workers, 221-224
Casts, plaster, wrist splint comparison, 590-591
Catheterization,central venous, unusual complication (letter), 189-191

Cerebral hemorrhage, CT scan transmission, emergency departments, 70-76
Cervical spine
injury, PC teleradiology, 384-389
trauma, children, 158-165, 256-278
Charcoal
activated
corneal abrasions secondary to (letter), 562
surface area, role in multiple-dose charcoal therapy, 583-585
Chemstrip test strips, visually and meter-read, emergency department (letter), 671-673
Chest pain, nontraumatic, early hospital care of, 576-582
Chickenpox, complications in children, 633-638
Child-resistant packaging, veterinary drugs, acepromazine poisoning, 247-248
CKMB isoenzyme, diagnosis of acute chest pain and, 444-449
Clostridium septicum, gas gangrene, subcutaneous insulin administration and, 622-625
Clozipine, side effects (letter), 312-313
Cocaine
as a contaminant. myocardial infarction and (letter), 681-682
bilateral amblyopia induced by, 35-37
intoxication, violence in the ED (letter), 674-675
ventricular arrhythmias, rapid atrial fibrillation and (letter), 96-97
Cold, urticaria induced by, angioedema and, 43-46
Coma, reversal, after repetitive hyperbaric oxygen therapy, 616-618
Computed tomography, intracranial
acute, head-injured patients, 321-326
intraorbital pencil (letter), 433-434
scan transmission, emergency departments, 70-76
Computers, CT scan transmission
emergency departments, 70-76
literacy, emergency medicine residents and faculty, 371-373
Consultation patterns, teaching hospital emergency department, 456-459
Contact lens, corneal abrasions, nonophthalmologist and, 606-608
Cornea
abrasions
contact lens, nonophthalmologist and, 606-608
secondary to activated charcoal (letter), 562
Coronary aneurysm, young adult, sequelae of childhood Kawasaki disease, 381-383
Coronary anomalies, congenital, sublingual nitroglycerin administration, 253-255
Corticosteroids, wheezing children, treatment in emergency department, 109-114
Counseling, parents of child dead on arrival, 225-229
Creatine kinase, diagnosis of acute chest pain and, 444-449
Cricothyrotomy
prehospital personnel
editorial, 310
human cadaver model, 207-209
Critical care medicine, annotated bibliography, 657-665
Cromolyn, wheezing children, treatment in emergency department, 109-114
Cyanide
acetonitrile poisoning, diagnosis and misdiagnosis, 104-108
methemoglobin concentration in, estimation of, 642-643
Cytochrome oxidase, inhibition, potassium cyanide poisoning, 213-217

Death, *see* Mortality
Defibrillation, automated and manual, emergency medical technicians, rural setting, 125-130
Demographics, emergency physicians, Canada, 364-370
Dental trauma, emergency department, 486-490
Diagnosis
human rabies, 279-286
misdiagnosis and, acetonitrile poisoning, 104-108
ultrasound, spontaneously-resolving appendicitis, 51-53
Dialysis, renal, management of congestive heart failure in, 644-647
Diarrhea, acute illness, infantile methemoglobinemia and, 471-472
Diethyldithiocarbamate, acute nickel carbonyl poisoning, 64-66
Digoxin, toxicity, hypothyroidism and (letter), 670-671
Disability, out-of-hospital resuscitation, preference in emergency health care workers, 221-224
Disease vectors, human rabies, 279-286
Dislocation, luxation of the globe, 61-63
Dithiocarb, acute nickel carbonyl poisoning, 64-66
Dog bite, pneumothorax secondary to (letter), 677-678
Do not resuscitate, CPR decision-making, New Mexico EMTs, 139-142
Drug Abuse Warning Network, surveillance of poisoning and drug overdose, 14-19
Drug overdose
calcium channel blockers, electrocardiography, 491-493
comatose patients, flumazenil use in, 122-124
cyclic antidepressant, hypertonic sodium bicarbonate in treatment of, 336-341
paroxetine (letter), 682
poisoning and
seizures associated with, 565-568
surveillance, 14-19
Drug reaction, adverse, adenosine, respiratory failure after, 249-250
Drugs, ACLS, extreme temperature effects, 450-452
Dwarfism, achondroplastic, multiple trauma in, 390-395
Dyskinesia, laryngeal, psychogenic stridor, 400-402

Editorials, 91, 183-186, 187, 310-311, 423-432
Electrocardiography
acute chest pain, cardiac enzymes in diagnosis of, 444-449
atrial accelerated idioventricular rhythm syndrome, 287-289
cases in, 81-83
continuous 12-lead, emergency department, 54-60
lead misplacements, recognition of, 403-405
ventricular escape beats, 177-179, 639-641
Electromechanical dissociation, atropine use in (letter), 312
Embolism
arterial, upper extremity, 67-69
venous air, after orogenital sex in pregnancy, 155-157
Emergency care, PC teleradiology, 384-389
Emergency department
acute chest pain, cardiac enzymes in diagnosis of, 444-449
acute congestive heart failure, management in renal dialysis patients, 644-647
acute pancreatitis, lupus patients, 230-232
all things to all people all the time (letter), 93-94
angioedema, angiotensin-converting enzyme inhibitors and, 350-354
chemstrip test strip comparison (letter), 671-673
child dead on arrival, counseling parents of, 225-229
class IV hurricane effects on operations, 464-467
continuous ECG monitoring, 54-60
CT scan transmission between, 70-76
group practice management, equity buy-in structures in, 28-32
intestinal obstruction, marble effect (letter), 317

patient flow in, computer monitoring of, 8-11
refractory status epilepticus, lidocaine use in, 243-244
serum and urine HCG determination (letter), 434-437
teaching hospital, consultation and referral patterns, 456-459
tissue and organ procurement in, 347-349
trauma, diagnostic radiography (letter), 431-433
treatment of children, noise hazard of (letter), 674-675
treatment of renal colic in, ketorolac, 197-199
ultrasound, blunt abdominal trauma, 342-346
violence in, psychosis in cocaine intoxication (letter), 675-676
wheezing children, changes in treatment, 109-114
Emergency medical services
out-of-hospital resuscitation, preference in emergency health care workers, 221-224
911 phone access, effect on survival of out-of-hospital cardiac arrest, 200-206
physicians, discrepancy in beliefs about resuscitation, 290-292, 592-594
prehospital care providers, use of differential front and back safety belts, 595-599
Emergency medical technicians
automated and manual defibrillation by, rural setting, 125-130
CPR decision-making, New Mexico, 139-142
use of differential front and back safety belts, 595-599
Emergency medicine
alternative training in (letter), 97-98
as primary care, editorial, 427-428
clozipine side effects (letter), 312-313
education, computer literacy in, 371-373
group practice management, equity buy-in structures in, 28-32
health care reform and, editorial, 311
hospital-based fixed-wing aeromedical services, reimbursement patterns, 586-589
humanism in, 556-559
intubation, inadvertent left mainstem bronchus, 33-34
pediatric, ketamine dissociative sedation, 180-182
physicians, demographics, Canada, 364-370
rape of, editorial, 429-430
teaching hospital, 187
Emesis, drug-resistant, theophylline poisoning, ondansetron effects, 609-610
Enalapril, angioedema and, emergency department, 350-354
Endobronchial intubation, inadvertent, left mainstem bronchus, 33-34
Endotracheal intubation
complications, bronchial stump disruption, 47-50
inadvertent, left mainstem bronchus, 33-34
Epidemiology, human rabies, 279-286
Epidural hematoma, massive,achondroplastic dwarf, 390-395
Epinephrine
high-dose
during CPR, sodium bicarbonate effects, swine, 439-443
editorial, 423-426
wheezing children, treatment in emergency department, 109-114
Equity, buy-in structures, emergency medicine group practice, 28-32
Erythropoietin,recombinant, overdose, 619-621
Ethics
emergency medicine, 556-559
prehospital
CPR decision-making, New Mexico EMTs, 139-142
CPR standards and limits, 592-594
Ethyl chloride, intoxication (letter), 313-315
Evaporation, treatment of heatstroke in dogs, 1-3
Eyeball globe, luxation of, 61-63
Eye injuries, penetrating orbital trauma, 396-399

Factor VII deficiency, case report, 600-601
Fava beans, ingestion of, acute hemolytic anemia (letter), 560-561
Fever, afebrile child, retropharyngeal abscess in, 151-154
Flumazenil, comatose drug overdose patients, 122-124
Foreign body
aluminum, radiographic detection, 12-13
ingestion, intestinal obstruction, marble (letter), 317
Fracture, cervical spine, children, 158-165, 256-278

Gangrene, gas, subcutaneous insulin administration and, 622-625
Gas chromatography, acetonitrile poisoning, diagnosis and misdiagnosis, 104-108
Gasoline, subcutaneous injection (letter), 676-677
Generalizability, prehospital rating scales, case severity and status change, 115-121
Genitourinary system, urethral disruption, traumatic pelvic fracture, females, 218-220
Globe, eyeball, luxation of the globe, 61-63
Glucagon, amrinone therapy and, comparison, beta-blocker toxicity, 360-363
Gun control (letter), 678-681

Headache
isolated sphenoid sinusitis, 235-238
migraine, ketorolac treatment, evaluation by patients, 573-575
Head injury
CT scan transmission, emergency departments, 70-76
intracranial computed tomography, high-yield criteria with, 321-326
radiologic criteria for, emergency department, 327-330
Health care reform, emergency medicine and, editorial, 311
Heart, hypoxic, protective effect of prostaglandin oligomer, rat, 4-7
Heart block
calcium channel blockers, electrocardiography, 491-493
varicella and, child, 602-605
Heart disease, ischemic, presenting as arterial emboli of upper extremity, 67-69
Heart failure, acute congestive, emergency department management, renal dialysis patients, 644-647
Heat stroke, treatment, evaporation *v* iced peritoneal lavage in dogs, 1-3
Heimlich maneuver, traumatic rupture of stomach and, 611-612
Helicopter, transport of cardiac patients, 651-652
Hemolysis, intravascular, long-acting effects of superoxide dismutase, rat, 355-359
Hemorrhage
near-fatal acute models, comparison in response, 331-335
varicella, complications in children, 633-638
Hemorrhagic shock, near-fatal acute models, comparison in response, 331-335
Hospital emergency services, child dead on arrival, counseling parents of, 225-229
Human chorionic gonadotropin, serum and urine, sensitivity and specificity of (letter), 434-437
Human immunodeficiency virus (HIV), influence of perceived risk, medical students' planned specialty choices, 143-148

Humanism, emergency medicine, 556-559
Hurricane, *see* Natural disasters,
Hyperbaric oxygen therapy, carbon monoxide poisoning, coma reversal after, 616-618
Hyperkalemia, electrocardiography, 81-83
Hyperlipidemia, diabetic keotacidosis and, spurious laboratory values, 77-80
Hypertension
  emergencies
    intravenous urapidil versus sublingual nifedipine in, 653-656
    oral labetol versus oral nifedipine in, 460-463
Hyperthermia, treatment, evaporation *v* iced peritoneal lavage in dogs, 1-3
Hypoglycemia, reversible paralysis with, streptococcal toxic shock-like syndrome, 239-242
Hypokalemia, electrocardiography, 177-179
Hypothyroidism, undiagnosed, digoxin toxicity and (letter), 670-671
Hypoxia, protective effect of prostaglandin oligomer, rats, 4-7
Hysterectomy, atypical ectopic pregnancy, 233-234

Image transmission
  CT, emergency departments, 70-76
  PC teleradiology, 384-389
Immobilization, short-arm cast versus wrist splints, radiographic comparison, 590-591
Immunocompetence, hemorrhagic varicella, complications in children, 633-638
Immunocompromised host, gas gangrene, subcutaneous insulin administration and, 622-625
Infection
  bacterial, wound preparation, guinea pig model, 134-138
  contact lens abrasions, nonophthalmologist and, 606-608
Injury surveillance, poisoning and drug overdose, 14-19
Insulin, subcutaneous administration, gas gangrene from, 622-625
International Classification of Diseases 9th Revision, surveillance of poisoning and drug overdose, 14-19
Intestinal tract, perforation, nonpenetrating abdominal trauma, 473-475
Intestine, obstruction, marble effect (letter), 317
Intracranial injury, computed tomography for, high-yield criteria with, 321-326
Iron
  poisoning, laboratory and clinical observations, 99-103
  total binding capacity, laboratory and clinical observations, 99-103

Jejunum, perforation, nonpenetrating abdominal trauma, 473-475

Kawasaki disease, childhood, sudden death in young adult, 381-383
Ketamine, dissociative sedation, pediatric emergency medicine, 180-182
Ketoacidosis, diabetic, hyperlipidemia and, spurious laboratory values, 77-80
Ketone body, arterial ratio, potassium cyanide poisoning, 213-217
Ketorolac
  treatment for migraine headache, evaluations by patients, 573-575
  treatment of renal colic, emergency department, 197-199
Kidney
  failure, dialysis patients, acute congestive heart failure in, 644-647
  injury, superoxide dismutase derivative effects, burned rats, 355-359

Labetol, oral, hypertensive emergencies, 460-463
Laboratory, spurious values, diabetic ketoacidosis and hyperlipidemia, 77-80
Lacerations, repair, shorthand vertical mattress stitch, 483-485
Larynx, dyskinesia, psychogenic stridor, 400-402
Leiomyoma, aborting uterine, vaginal bleeding, 40-42
Lidocaine, refractory status epilepticus, emergency department, 243-244
Lisinopril, angioedema and, emergency department, 350-354
Liver, mitochondria, potassium cyanide poisoning effects, 213-217
Luxation, eyeball globe, 61-63

Magnesium, industrial-strength, red labels for (letter), 431
Mattress stitch, shorthand vertical, new suture technique, 483-485
Medical students, specialty choices, perceived risk of HIV influence, 143-148
Methemoglobin, concentration, presence of cyanide, estimation of, 642-643
Methemoglobinemia
  cyanide and, estimation of, 642-643
  infantile, acute diarrheal illness and, 471-472
Methotrexate, treatment of ectopic pregnancy, rupture and, 480-482
Misdiagnosis, ECG lead misplacements, 403-405
Mortality
  child dead on arrival, counseling parents of, 225-229
  out-of-hospital resuscitation, preference in emergency health care workers, 221-224
  sudden death in a young adult, childhood Kawasaki disease and, 381-383
  varicella in children, 633-638
Myocardial infarction
  cocaine-associated (letter), 681-682
  continuous ECG monitoring, 54-60
  diagnosis, cardiac enzymes and, 444-449
  inadvertent administration of rtPA and, 613-615
  nontraumatic chest pain, early hospital care of, 576-582
Myocarditis, varicella and heart block, child, 602-605

Naloxone, ventricular arrhythmias and atrial fibrillation, cocaine-induced (letter), 96-97
Nasal septum, abscess, complication of trauma, 149-150
Nasogastric intubation, review, 84-89
Nasogastric tube, intracranial penetration of (letter), 94-95
Natural disasters, class IV hurricane, effect on emergency department operations, 464-467
Nausea, ketorolac treatment for migraine, evaluations by patients, 573-575
Near-drowning, emergency treatment, butyl alcohol vapor use in, 20-27
Nephrolithiasis, intravenous ketorolac treatment, emergency department, 197-199
Nickel carbonyl, acute poisoning, 64-66
Nifedipine, oral, hypertensive emergencies, 460-463, 653-656
Nitrite, methemoglobin concentration in, estimation of, 642-643
Nitroglycerin, sublingual administration, symptomatic bradycardia after, 253-255
Noise, hazard, children in the ED (letter), 674-675
Nonsteroidal antiinflammatory drugs (NSAIDs), ketorolac, treatment of renal colic, emergency department, 197-199

Ondansetron, effect on emesis, theophylline poisoning, 609-610
Orbit, penetrating injury, pencil, CT (letter), 433-434

Orofacial injuries, emergency department, 486-490
Orogenital sex, venous air embolism after, pregnancy, 155-157
Oxygen
  hyperbaric, therapy for carbon monoxide poisoning, 616-618
  saturation, wheezing children, emergency department, 109-114

Pacemaker, escape beats, electrocardiography, 639-641
Pacemaking, cardiac, emergency, 166-176
Packaging
  child-resistant, veterinary drugs, 247-248
  red labels, industrial-strength magnesium (letter), 431
Pancreatitis, acute, lupus patients, 230-232
Paralysis, reversible, streptococcal toxic shock-like syndrome, 239-242
Paramedics
  see also Prehospital personnel
  seizure management, triage management for, 210-212
Paraplegia, cervical spine trauma, children, 158-165, 256-278
Parents, counseling of, child dead on arrival in emergency department, 225-229
Paroxetine, overdose (letter), 682
Patient evaluation, ketorolac treatment, migraine headache, 573-575
Patient flow, emergency department computer monitoring of, 8-11
Pediatrics
  acepromazine poisoning, child-resistant packaging, 247-248
  acute diarrheal illness, infantile methemoglobinemia and, 471-472
  afebrile child, retropharyngeal abscess in, 151-154
  annotated bibliography, 293-307
  cervical spine trauma, 158-165, 256-278
  child dead on arrival, counseling parents of, 225-229
  hemorrhagic varicella, 633-638
  Kawasaki disease, sequelae in young adult, 381-383
  noise hazard, treatment in emergency department (letter), 674-675
  sedation, ketamine in, 180-182
  varicella, heart block and, 602-605
  wheezing, changes in treatment in emergency department, 109-114
Pelvic fracture, traumatic, urethral disruption, females, 218-220
Pelvic inflammatory disease
  acute suppurative salpingitis, with intrauterine pregnancy, 476-479
  diagnosis, serum amylase in, 453-455
  differentiation from appendicitis, childbearing age women, 569-572
Peritoneal lavage
  diagnostic, blunt abdominal trauma, 342-346
  versus evaporation, treatment for heatstroke, dogs, 1-3
Phenothiazines, poisoning, pediatric, 247-248
Physician-patient relations, emergency medicine, 556-559
Physicians, emergency, demographics, Canada, 364-370
Pneumonectomy, complications after, bronchial stump disruption, 47-50
Pneumothorax, secondary to dog bite (letter), 677-678
Poison control, surveillance of poisoning and drug overdose, 14-19
Poisoning
  acepromazine, pediatric, 247-248
  acetonitrile, diagnosis and misdiagnosis, 104-108
  American Association of Poison Control Centers Toxic Exposure Surveillance System, 1992 annual report, 494-555
  carbon monoxide, hyperbaric oxygen therapy for, 616-618
  drug overdose and
    seizures associated with, 565-568
    surveillance, 14-19
  iron, laboratory and clinical observations, 99-103
  nickel carbonyl, 64-66
  potassium cyanide, clinical course of recovery, 213-217
  theophylline, drug-resistant emesis in, ondansetron effects, 609-610
Poison Prevention Packaging Act, veterinary drugs, 247-248
Polycythemia, recombinant erythropoietin overdose, 619-621
Potassium cyanide, poisoning, clinical course of recovery, 213-217
Pregnancy
  complications, venous air embolism after orogenital sex, 155-157
  ectopic atypical, 233-234 ruptured, after medical management, 480-482
  intrauterine, acute suppurative salpingitis with, 476-479
  tests, emergency department (letter), 434-437
Prehospital care
  ACLS drugs, extreme temperature effects, 450-452
  acute congestive heart failure, in renal dialysis patients, 644-647
  resuscitation, standards and limits, 592-594
Prehospital personnel
  see also Paramedics,
  cricothyrotomy and
    editorial, 310
    human cadaver model, 207-209
  seizure management, triage management for, 210-212
  use of differential front and back safety belts, 595-599
Prehospital rating scales, reliability of, case severity and status change, 115-121
Prolactin, levels, syncopal attacks and, 251-252
Propranolol, toxicity, combined amrinone and glucagon therapy in, 360-363
Propulsion, luxation of the globe, 61-63
Prostaglandin polymer, protective effects of, hypoxia, rats, 4-7
Pseudohypercalcemia, diabetic keotacidosis and, spurious laboratory values, 77-80
Pseudohypochloremia, diabetic keotacidosis and, spurious laboratory values, 77-80
Pseudohyponatremia, diabetic keotacidosis and, spurious laboratory values, 77-80
Pseudonormoglycemia, diabetic keotacidosis and, spurious laboratory values, 77-80
Pseudonormonatremia, diabetic keotacidosis and, spurious laboratory values, 77-80
Pseudoseizures, psychogenic convulsive, 626-632
Psychosis, cocaine intoxication and, emergency department (letter), 674-675
Pulmonary edema, near-drowning,butyl alcohol vapor use in treatment, 20-27
Purpura, hemorrhagic varicella,complications in children, 633-638

Quality assurance
  emergency department patient flow, computer monitoring of, 8-11
  letter, 682-683
Quality of life, instrument for measurement, sensibility of, 374-380

Rabies, vaccine, 279-286
Radiology
  comparison of immobilization techniques, 590-591
  detection of aluminum foreign bodies, 12-13

diagnostic, emergency department trauma (letter), 431-433
panoramic radiography, fracture of titanium-rigid fixation plate (letter), 315-317
radiographic imaging, head injury patients, 321-326
Rating scales, prehospital, case severity and status change, 115-121
Recording electrodes, improper placement of, 403-405
Redox state, changes, recovery from potassium cyanide poisoning, 213-217
Referral patterns, teaching hospital emergency department, 456-459
Regional jet injection, digital blocks, 648-650
Reimbursement, hospital-based fixed-wing aeromedical service, 586-589
Reliability, prehospital rating scales,case severity and status change, 115-121
Renal colic, intravenous ketorolac treatment, emergency department, 197-199
Residency programs, emergency medicine, computer literacy in, 371-373
Resuscitation
see also Cardiopulmonary resuscitation,
discrepancy in beliefs,physicians, 290-292, 592-594
near-fatal acute hemorrhage models, commparison in response, 331-335
out-of-hospital, preference in emergency health care workers, 221-224
prehospital, standards and limits, 592-594
Retropharyngeal abscess, afebrile child, 151-154
rtPA, inadvertent administration, type 1 aortic dissection patient, 613-615

Salpingitis
acute suppurative, with intrauterine pregnancy, 476-479
differentiation from appendicitis, childbearing age women, 569-572
pelvic inflammatory disease, serum amylase in, 453-455
Seizures
complication of intravenous adenosine, supraventricular tachycardia (letter), 192-194
management, advanced life support team management of, 210-212
poisoning and drug overdose, 565-568
psychogenic, 626-632
syncopal attacks, increased prolactin levels with, 251-252
Sensibility, quality-of-life instrument, 374-380
Septal abscess, nasal, complication of nasal trauma, 149-150
Serum amylase, use in diagnosis, pelvic inflammatory disease, 453-455
Sinusitis, isolated sphenoid, 235-238
Skin disease, hemorrhagic varicella, complications in children, 633-638
Skull
fracture, CT scan transmission, emergency departments, 70-76
radiography, head injury patients, 321-326
Sodium bicarbonate
see also Bicarbonate,
hypertonic, cyclic antidepressant drug overdose, 336-341
Sodium hydroxide, air bag toxicity, 38-39
Sonography
see also Ultrasound
spontaneously-resolving appendicitis, 51-53
Spectrophotometry, methemoglobin concentration, in the presence of cyanide, 642-643
Sphenoid sinus, isolated sinusitis in, 235-238
Splints, wrist,plaster cast comparison, 590-591
Status epilepticus
see also Seizures
lidocaine use in, emergency department, 243-244
psychogenic seizures, 626-632
Stomach, traumatic rupture, secondary to Heimlich maneuver, 611-612
Streptococcus, toxic shock-like syndrome, hypoglycemia and reversible paralysis, 239-242
Stridor, hysterical, diagnosis of exclusion, 400-402
Subclavian vein, right, safe puncture (letter), 561-562
Superoxide dismutase derivative, long-acting effects, burned rats, 355-359
Survival, cardiac arrest, out-of-hospital, 200-206
Suture techniques, shorthand vertical mattress stitch, 483-485
Sympathetic activation, atrial fibrillation, adenosine injection for, 245-246
Syncope, increased prolactin levels with, 251-252
Systemic lupus erythematosus
acute pancreatitis in, 230-232
peripheral vascular thrombosis in, measurement of anticardiolipin antibody, 468-470

Tachycardia
supraventricular
adenosine and, 249-250
intravenous adenosine, complications (letter), 192-194
ventricular
calcium channel blockers and, electrocardiography, 491-493
electrocardiography, 81-83, 177-179, 639-641
Tamponade, inadvertent administration of rtPA and, type 1 aortic dissection, 613-615
Teaching hospital, emergency department, consultation and referral patterns in, 456-459
Teleradiology
CT scan transmission, 70-76
personal computer, comparison of image quality, 384-389
Temperature, extreme, effects on ACLS drugs, 450-452
Testosterone, natural, reactions to (letter), 188-189
Theophylline
activated charcoal surface area enhancement, 583-585
poisoning, drug-resistant emesis in, ondansetron effects, 609-610
Thrombolytic therapy
myocardial infarction, continuous ECG monitoring, 54-60
nontraumatic chest pain, early hospital care, 576-582
Thrombosis, peripheral vascular, lupus patients, anticardiolipin antibody measurement in, 468-470
Tissue/organ procurement, emergency department setting, 347-349
Titanium-rigid fixation plate, fracture, panoramic radiography (letter), 315-317
Toxicity
air bags and, 38-39
American Association of Poison Control Centers Toxic Exposure Surveillance System, 1992 annual report, 494-555
digoxin, hypothyroidism and (letter), 670-671
iron, laboratory and clinical observations, 99-103
propranolol, combined amrinone and glucagon therapy in, 360-363
theophylline, drug-resistant emesis in, ondansetron effects, 609-610
Toxic shock, streptococcal, hypoglycemia and reversible paralysis with, 239-242
Transplantation, tissue/organ procurement, emergency department setting, 347-349

Trauma
abdominal
blunt, goat assault (letter), 191-192
emergency department ultrasound in, 342-346
multiple midline injuries (letter), 92-93
nonpenetrating, jejunal perforation from, 473-475
annotated bibliography, 406-422
cervical spine, children, 158-165, 256-278
complication of, nasal septal abscess, 149-150
contact lens abrasions, nonophthalmologist and, 606-608
dental, emergency department, 486-490
dog bite, pneumothorax secondary to (letter), 677-678
emergency department, diagnostic radiography (letter), 431-433
firearm injuries, editorial, 183-186
head
intracranial computed tomography, 321-326
radiologic criteria in emergency department, 327-330
multiple, achondroplastic dwarf, 390-395
orbital
occult penetrating, 396-399
penetrating injury, pencil, CT (letter), 433-434
pelvic fractures, urethral disruption, females, 218-220
stomach rupture, secondary to Heimlich maneuver, 611-612
vascular injury, hemorrhagic shock and, 331-335
Treatment protocols, human rabies, 279-286
Triage
early hospital care, nontraumatic chest pain, 576-582
prehospital seizure management, 210-212

Ulceration, cornea, contact lens, nonophthalmologist and, 606-608
Ultrasound
blunt abdominal trauma, emergency department, 342-346
graded compression, spontaneously-resolving appendicitis, 51-53
Urapidil, intravenous, hypertensive emergencies, 653-656
Urethra, disruption, traumatic pelvic fractures, females, 218-220
Urticaria, cold-induced, angioedema and, 43-46

Vaccine, rabies, 279-286
Vagina, insufflation, venous air embolism in pregnancy, 155-157
Varicella, complete heart block and, child, 602-605
Varicella-zoster virus, children, 633-638
Vascular injury, hemorrhagic shock and, 331-335
Vasospasm, "crack" cocaine-induced bilateral amblyopia, 35-37
Ventricular arrhythmias, cocaine-induced (letter), 96-97
Ventricular escape beats, electrocardiography, 177-179, 639-641
Ventricular fibrillation
CPR, high-dose epinephrine in, bicarbonate effects, swine, 439-443
Ventricular rhythm, electrocardiography, 81-83

Wolff-Parkinson-White thrombolytics, electrocardiography, 287-289
Wounds and injuries
class IV hurricane, emergency medical services and, 464-467
gunshot, penetrating orbital trauma, 396-399
healing, shorthand vertical mattress stitch, 483-485
orofacial, emergency department, 486-490
scrubbing and irrigation, guinea pig model, 134-138
